Yellow Diva

Milker
 Designed by David Walley
 Manufacturer Yellow Diva

A reinterpretation of archetypal provincial furniture with a contemporary slant.

The Milker range comprises stools, tables and dining chair. Milker 3 stool has a triangular seat and three legs, one in an accent colour. Milker 4 stool has four legs and a square seat with inlaid coloured disc. Cafe tables maintain the aesthetic of the stools, with elegantly jointed socket details and cross rails to maximise structural integrity. Pedestal tables have a custom cast iron base and the option of screen-printed graphic. Milker dining chair has a generous seat and split back detail with feature colour.

Milker stools, tables and chairs are available in a range of colour accents taken from a palette of warm and cool hues inspired by vintage milk paints.
